

Accreditation and the Process Forward

Transition Planning Document

Overview

From the inception of the partnership, both the El Camino Community College District (ECCCD) and the Compton Community College District (CCCD) have been fully committed to obtaining independent accreditation for El Camino College Compton Educational Center. On June 7, 2017, the Accrediting Commission for Community and Junior Colleges (ACCJC) announced that the ECC Compton Center had [achieved initial accreditation](#). Then on July 17, 2017, the Board of Governors for the California Community Colleges approved [Resolution No. 2017-2](#) recognizing Compton College as the 114th California Community College.

When the partnership began, a primary objective was to provide quality educational programs and services for student success. By initiating new student programs and expanding current offerings, student success has become a focus throughout Compton College. Academic programs initiated or expanded during the last twelve years include: Supplemental Instruction, First Year Experience, student-led tutoring, a nursing simulation lab, honors transfer classes, guaranteed transfer partnerships, Upward Bound Math/Science, Brother & Sisters mentoring program, Formerly Incarcerated Student Transition program (FIST), a debate team, the Alpha Gamma Sigma Honor and Scholarship Society, and the Historically Black College and University transfer program.

Additionally, student success is evident through the increase in the number of Compton College students earning degrees. Other achievements include the annual Academic Awards Tea, which recognizes honors transfer students, Presidential Scholars and scholarship recipients. Through financial aid assistance and an ongoing awareness campaign, El Camino College (ECC) through Compton College continues to provide financial support for students. Scholarships to students totaling more than \$31,500 were awarded to 39 students in 2017-2018.

Compton College has initiated a variety of new academic offerings, as well as enhancing existing Career & Technical Education programs, including cosmetology, robotics, Heating, Ventilation and Air Conditioning (HVAC), aerospace fastener manufacturing, and career advancement and fire academies. Compton College is also participating in the Strong Workforce Program - a \$200 million program designed to boost Career and Technical Education programs on community college campuses throughout California.

In fall 2015, a new Early College High School was established in partnership with the Compton Unified School District. In addition, partnerships establishing pathways with the Compton and Lynwood unified school districts, Compton College and CSU Dominguez Hills have been implemented.

To make college education more accessible and affordable, Compton College signed the “Lynwood Promise” agreement with the Lynwood Unified School District (LUSD) on May 10, 2018, to provide guaranteed admissions and one year of paid enrollment fees to Compton College for all LUSD graduates beginning in fall 2019. This is the second Compton College Promise partnership agreement established with local school districts. The first partnership agreement was signed by the Compton Unified School District in October 2017. Compton Unified School District’s class of 2018 graduates who enroll at Compton College for fall 2018 are the first students eligible to participate in the Compton College Promise program. Compton College is also developing its third College Promise partnership with Paramount Unified School District (PUSD).

Work on Measure CC and state capital outlay funded facilities projects continues with many campus improvements including a new central plant, upgraded main north/south road and parking lots, a renovated football stadium, campus theater, and new cosmetology facility. Two significant milestones in facilities improvements include the 2016 grand opening of the 20,000-square-foot Allied Health Building and the 2014 grand opening of the 45,000-square-foot Library-Student Success Center. In 2014, voters approved Measure C, a \$100 million dollar facilities bond for Compton College.
