Program Information

UCLA's Center for Community College Partnerships (CCCP) presents the **CCCP Scholars Program** for the 2010-2011 Academic Year. The goal of the program is to **motivate, inform** and **prepare** students to transfer from a California community college to selective Top Tier Research institutions such as UCLA. If selected, students in the program have access to our summer and year-long academic preparatory transfer programs which guide students through the community college experience, the application and admissions process, research and pre-graduate opportunities and career exploration.

CCCP Scholars have a higher rate of admissions to selective institutions and are eligible for special scholarships. The programs focus on these processes from a **social justice** and **educational equity** perspective.

Target Participants

CCCP Scholars are students who may:

- be the **first** in their family to go to college;
- come from **low-income** backgrounds;
- and/or be from **underserved** communities.

CCCP Scholars targets students who:

- have **recently graduated from high school** and plan to enroll in a community college in the fall **OR students currently attending community college** who have not yet completed a transfer curriculum at the time of application.
- show potential for **transfer success**.
- are **non-traditional** students who have faced challenges in their academic career.

1) If you have already participated in one of our summer programs, you do not need to apply to the CCCP Scholars Program as you are currently enrolled. You must, however, complete a new CCCP Scholars agreement every year.
