

Withdrawal Survey - Spring 2022 Math Courses

August 2, 2022
n=23

Please respond to the following statements.

Please provide any additional reasons as to why you withdrew from this class.

I didn't feel prepared in the class, I was dealing with personal problems at home

I withdrew from this class as I was a dual enrolled student. My high school classes were my priority in order to graduate this year. Taking the class online really didn't help me learn or motivate me to get work done.

Had a family emergency and I had to leave the country, which I didn't have access to the internet. When I came back I was behind so I drop it.

This class isn't prerequisite.

Had to pick up multiple shifts at work to cover expenses for my family

instructor did nothing to help. Told instructor to help me with the mathematics, told me he couldn't. My aim is to learn, not searching up answers online.

My grandma died. I was devastated. I still am.

I withdrew from math 150 due to the fact that i had two college class and was not time managing them well.

It was an online course and I could not do the work or write due to having a laceration on my hand. I was in pain and had to wear a splint while it healed. Got behind in class, discussed with professor who recommended I retake the class instead.

I was 7 months pregnant and hospitalized with Covid 19. It was overwhelming at the time, but I completed the course later in the semester.

It was not prerequisite class but I think I will re take a class.

The reason why I withdrew from this course is because due to me not being vaccinated I have to take my math course online, and it's frustrating I feel as if math should not be taken online. It took a toll on my mental so I withdrew from the class.

An additional reason as to why I withdrew from this class was due to having another college class as well as my semester for high school closing with all of the testing and finals I couldn't keep up.

Had previous taken this Math class and received passing grade of C , although C is passed wasn't accepted for transfer. Need grade of B or better which I didn't think I would obtain.

I had to go out of the country and didn't have access to internet and was behind on the class so I withdrew from the course instead of failing it.

Because. Of. Cov. -19

I started a new job that require 14 hours days. I'm in training, and on probation. Drive from Long Beach to West L.A. daily Decided to go with Certification. Have three classes for Fall 2022-23

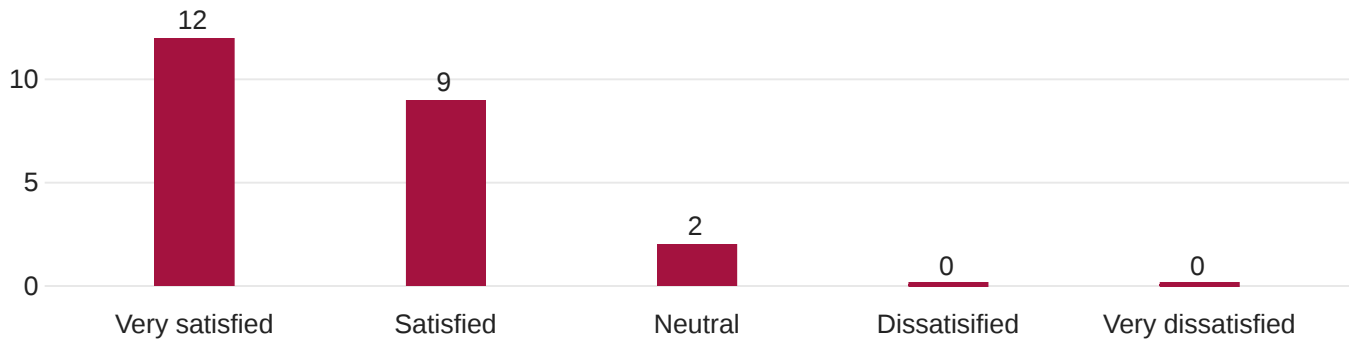

Although the professor was nice and even offered me to see a tutor, i just became very uncomfortable with the fact that my grades were shared with the entire class. It was not only my grades, however I was one of the students who most struggled.

Due to the pandemic and having to bury my mother and cremate my father and brother I was at a point of depression and it was hard to stay focused on top of one of my younger family members committed suicide and no one had insurance on top of school

Did you access student supports from the college (e.g., tutors, the Student Success Center)?
