

Compton Community College District 2021-22 Redistricting

About Us

Redistricting Partners is a firm that focuses on redistricting, demographics and voting rights act analysis.

- Works under a master agreement with the **Foundation for California Community Colleges** to provide services directly to districts. We have done more of this work with community colleges than any other firm.
- Similar partnership with the California School Boards Association for 2021.

What is Redistricting

Definition

Redistricting is the process of adjusting district lines every 10 years after the release of the U.S. Census. The well-known examples are Congress and the legislature.

Within the U.S., redistricting has become an extremely politicized process and has been the subject of more high-profile Supreme Court decisions than any other part of our elections system.

Traditional Redistricting Principles

Preventing a Districting from Becoming a Gerrymander

There are a number of criteria that have been used nationally and upheld by courts.

- Relatively equal size – people, not citizens
- Contiguous – districts should not hop/jump
- Keep districts compact – appearance/function
- Maintain “*communities of interest*”
- Follow city/county/local government lines

Communities of Interest

Bringing like-minded people together for representation

A community of interest includes ethnic and language minorities and other groups.

Communities covered by the Voting Rights Act

- Latinos
- Asians
- African Americans

While race is a community of interest, it cannot be the *predominant factor* in drawing districts.

Fair Maps Act (2019)

Preventing a Districting from Becoming a Gerrymander

Starting in 2020, cities and counties doing redistricting have additional criteria they must follow under the California Fair Maps Act. This becomes a “best practice” for all agencies.

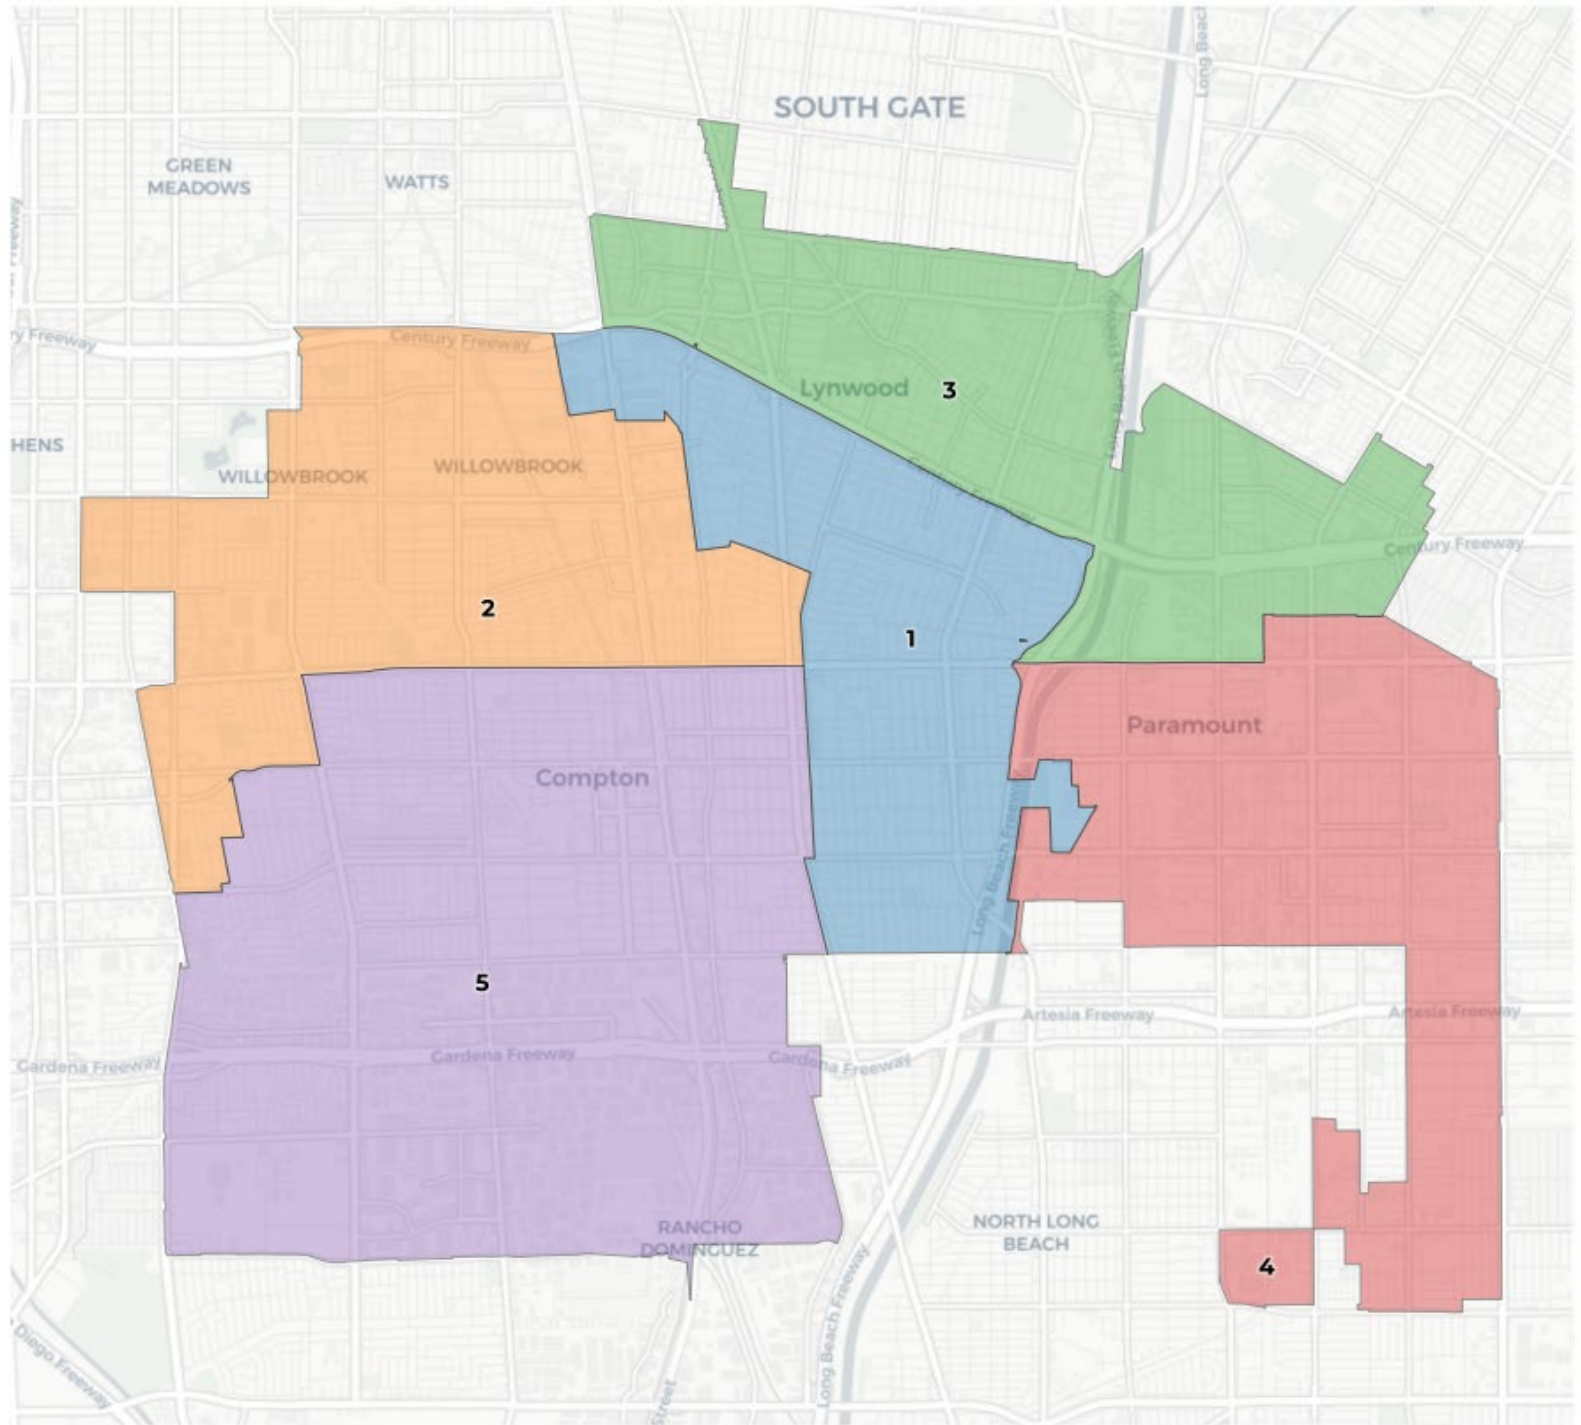

- Process/transparency when conducting redistricting
- Not using incumbent or candidate residence as a Community of Interest
- Not drawing districts to advantage a political party

These rules do not currently apply directly to community college trustee areas, but redistricting best practices will likely push most agencies to voluntarily adopting them.
