19a. Job placement rates for students completing certificate programs and CTE (career-technical education) degrees for last three years available data:

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2022-23 job placement rate will be the number of students who completed the program in 2021-22.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2021-22, you do not need to report a job placement rate for 2022-23. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition – but please describe your definition and methodology in Question 19.

20. Please use the text box below to provide any comments or context regarding the data submitted in this report (optional, no word limit):

21. Reflecting on your Institution's student achievement(s), what efforts/initiatives/competencies have you found to be fundamental in supporting the recent successes you've observed/reported? Please describe any innovations and improvements along with a brief narrative of how it was achieved.

Compton College's recent student achievement successes have been supported by the implementation of the Compton College 2035 Comprehensive Master Plan, which has strengthened alignment between instructional programs, student support services, workforce preparation, and institutional planning. The College has emphasized equity, cross-campus collaboration, integrated planning, and data-informed decision-making to improve student outcomes and support continuous improvement efforts. These efforts have contributed to stronger focus on student completion, transfer, workforce readiness, and employment outcomes. Building on this foundation, the College is now intentionally centering a student return on investment (ROI) and economic mobility focus to better understand and improve students' long-term academic and economic outcomes.

22. What professional development can the Commission coordinate to support your Institution in achieving its student success goals within the next three-year cycle?

The College would value opportunities to engage with peer institutions on innovative practices related to workforce alignment, student economic mobility, and cross-functional collaboration across instructional, student services, and institutional effectiveness areas. In addition, professional development focused on emerging technologies, including ethical and effective applications of artificial intelligence outside of the classroom, would support institutional capacity-building and innovation. These opportunities would help the College continue advancing equitable student outcomes, institutional effectiveness, and a culture of continuous improvement.

23. Please confirm you have reviewed your institution's program listing in the Accreditation Platform. In the box below, please select one of the following.
