2026 Annual Military Equipment Report  
Presented June 15, 2026

## **SUMMARY**

[Assembly Bill 481 \(AB 481\)](#), effective January 1, 2022, requires a law enforcement agency to obtain approval from its governing body, by adoption of a military equipment use policy, before taking certain actions relating to the funding, acquisition, or use of “military equipment” as defined by AB 481. Approval is also required for collaborating with outside agencies on the use of military equipment or for using such equipment in new ways not previously authorized.

For the Compton College District Police Department (CCDPD), the governing body is the Compton Community College District Board of Trustees (Board). On March 16, 2026, the Board approved [Resolution No. 03-16-2026A, Assembly Bill 481 Corrective Action Plan](#), for the adoption of a military equipment use policy in accordance with AB 481. The Board approved [CCDPD’s Policy 706 - Military Equipment Use](#) on April 20, 2026.

AB 481 requires annual re-approval of the policy by the Board, and an annual public report detailing how the equipment was used, associated costs, any complaints or violations, and audit results. This report fulfills that annual requirement.

## **ANALYSIS**

The CCDPD retains and employs various equipment that falls within AB 481’s definition of “military equipment.” The equipment is maintained and in place, so the CCDPD can safely carry out its mission to safeguard the communities of the Compton Community College District and its properties. The mere possession of this equipment does not warrant its use in every incident. Since the termination of the District’s partnership with El Camino CCD in 2019, CCDPD has not been accused of any indiscriminate use of this type of equipment. CCDPD recognizes that critical incidents are unpredictable and often fluid and dynamic. CCDPD, under the direction of its Chief of Police, understands the importance of training, best practices, and technology for the safety of its personnel, the Compton Community, and its visitors.

CCDPD equipment, not just “military equipment,” is predicated on the mission of the department, policy, training, law, the safety of our officers, and the safety of our communities. Officers and senior-level staff, including the Chief of Police, are influenced by the totality of the circumstances, public safety, civil rights, and all available information at the time of a critical incident or disaster, as well as the desire to bring that incident to a safe resolution. The need for equipment is outlined in the CCPD Military Equipment Inventory, and this report is grounded in our mission of protecting students, faculty, and staff in the face of potential life-threatening situations.

AB 481 outlines 15 categories of military equipment, including armored vehicles, specialized firearms, breaching tools, diversion devices, and kinetic energy munitions. In compliance with [Policy 706 - Military Equipment Use](#), CCDPD retains

equipment in Categories 7, 9, 13, and 14, as no other categories are in use. Officers must complete initial and ongoing training and certification before using any military equipment. All use is governed by [CCDPD Policy 706, Military Equipment](#), and reflects a commitment to safety, transparency, and accountability.
